

SSUDAN-SUDAN-CONFLICT-REFUGEES

## **DONATION FOR STREET KIDS**

Passing through the city, I met several street kids, each with dreams buried beneath the hardships of daily life. After sharing their stories online, donations poured in from generous strangers—enough to provide food, clothes, and school supplies. Working with local volunteers, we enrolled many of the kids in school, giving them a safe space to learn and grow. Together, we transformed their uncertain futures into ones filled with hope, all thanks to the power of community and small acts of kindness.
